We invite all Great Kindness Challenge schools to participate in the Kind Coins Campaign, a global service project to help build a new school in a community in need. Your students will learn about children from another culture and then help them get access to education.

2016 Kind Coins for Kenya

148 schools raised $79,146.29 to build a school in the remote village of Mikei, Kenya

2017 Kind Coins for Pakistan

We will build a new school and peace center in Quetta, Pakistan.

Four steps to participate in this life-changing campaign:
1. Watch the Kind Coins for Pakistan video.
2. Learn about children in Pakistan using provided resources.
3. Encourage students to collect Kind Coins.
4. Optionally, take a photo of your generous students to be displayed at the new school in Pakistan.

All participating schools will be updated on the school building progress. Additionally, your school will receive special recognition in the celebration video once the new Pakistani school and peace center is built.

The Kind Coins for Pakistan video and resources will be available Fall 2016.
