

Wall of Wishes & Celebration Video Photos

What

Wall of Wishes is part of our [Kind Coins for Our Earth](#) campaign. After students raise money to fund a global ocean cleanup, students take a photograph of themselves that incorporates a wish for our Earth related to clean and healthy oceans and/or ending plastic pollution. We also invite you to send us pictures of your students participating in the campaign and collecting Kind Coins. The photos will be featured in a virtual photo gallery and may also be used in our official Kind Coins for Our Earth celebration video.

Who

All students are invited to participate in the Kind Coins for Our Earth campaign. This may be a single student, one classroom, or the whole school. You are invited to submit as many photos as you wish.

When

The photos may be taken during or after the Kind Coins for Our Earth campaign. The photos will be featured in a virtual gallery and may be included in the official Kind Coins for Our Earth celebration video. **All photos are due by June 30, 2023.**

How

1. During or after the Kind Coins for Our Earth campaign, decide on a wish for our Earth (related to clean and healthy oceans and/or ending plastic pollution).
2. Write the wish in your desired format: painted banner, using markers, using computer-generated designs, etc.
3. Take photo of the participating students with the wish incorporated into the picture. Yes, it's OK to Photoshop the wish after the photo has been taken!
4. Email digital copies of your photos to info@greatkindnesschallenge.org. Please save your photos with your school name, city and state in the file name so we can give your school appropriate credit.
8. Smile BIG knowing that you are helping make our oceans clean and healthy for everyone!
