

# Undy 500

## New Underwear and Sock Drive for Hurricanes Helene & Milton Relief

### What

The Undy 500 New Underwear and Sock Drive is an opportunity for your school to directly help students affected by Hurricanes Helene and Milton. We're calling on Great Kindness Challenge (GKC) schools to support schools in impacted areas to help meet critical needs and bring comfort. The goal is to collect 500 items per school/community, but every contribution counts!

### How

1. Visit [thegreatkindnesschallenge.com/hurricanerelief](https://thegreatkindnesschallenge.com/hurricanerelief) to view the list of schools in need. You'll find each school's details, including address, number of students, and the level of impact caused by the hurricane.
2. Choose a school to support and complete the online form.
3. Organize a drive within your school community to collect new underwear and new socks. Encourage students, families, and staff to participate in this compassionate effort.
4. Ship the collected items to the school you've supported. We are hoping to secure funds that will cover full or partial shipping costs, and we'll confirm those details in the coming weeks based on the success of our fundraising efforts and the number of participating schools.

### Why

This is a special opportunity for students to put their compassion into action. Through the Undy 500, students can support their peers in a tangible way, giving them a sense of purpose and connection during a time of need. In addition to the much-needed supplies, we ask your students to send messages of love and encouragement by writing them on hearts made of paper or cloth and attaching them to each package of socks and/or underwear. These notes will provide an uplifting and heartfelt surprise for the students receiving your donations.

By participating, your students will not only provide essential goods for the health and hygiene of hurricane-affected school children, but they will also experience a deeper sense of empathy for what those children are going through. They will know that their actions have a direct impact on the lives of others.

### When

You can start organizing your drive as soon as you sign up to support a school. Please aim to collect and ship all donations as soon as possible. We will inform you if and when the shipping grants become available.

Together, we can show students affected by Hurricanes Helene and Milton that they are not alone, that they are thought of, and that their fellow students across the country care for them deeply.

For more details and to get started, visit [thegreatkindnesschallenge.com/hurricanerelief](https://thegreatkindnesschallenge.com/hurricanerelief).
