

# LOVE for LA

**Sending Support & Socks**  
Our hearts are with you every step.

## Video Recording & Submission Guidelines

We invite your students to join us in creating a heartfelt collective video filled with love and encouragement for the school communities impacted by the Los Angeles wildfires.

Whether it's your entire school, a classroom, or an individual student, every message matters. Together, we can send a powerful wave of hope to those who need it most.

To ensure we can feature as many messages as possible, please follow these simple steps:

### Keep it Short and Sweet:

Videos should be 15 seconds or less.

### Choose a Quiet Setting:

Film in a location with minimal background noise for clear audio.

### Speak with Heart:

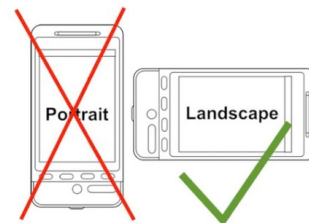

Make your message sincere and easy to understand.

### Lighting is Key:

Use natural light whenever possible. Film outdoors during the day or indoors where the subject is facing a well-lit window.

### Film Horizontally:

Hold your camera or phone in landscape orientation for the best framing.

### File Naming:

Save your video with this file name format: LALove\_StateAbbr\_City\_Country

Example: LALove\_CA\_Carlsbad\_USA

Or include location details when emailing the file.

### Submit Your Video:

Email your video clip to [meg@kidsforpeaceglobal.org](mailto:meg@kidsforpeaceglobal.org).

Thank you for joining us in spreading love and light to those affected by this tragedy.
